Utah State Board of Education Time and Effort Guidance

Time and Effort Policy

Local Education Agencies (LEAs) must have an established written time and effort policy that applies to both federal and non-federal activities. Policies should be updated regularly. (2 CFR § 200.430(a)(1) and Special Education Rules Section X.T.1)

Time and Effort Standards

All employees who are paid in full or in part with federal funds, or as required by state funds, must keep specific documents to demonstrate the amount of time they spent on grant activities. (2 CFR § 200.430(i)(1)) In addition, employees who are paid from state and local funds, but whose salaries are used for cost sharing or matching, must also keep time and effort documentation. (§ 200.430(i)(4))

Charges to federal awards for salaries and wages must be based on records that accurately reflect the work performed. In accordance with § 200.430(i)(1), these records must:

- Be supported by a system of internal controls which provides reasonable assurance that the charges are accurate, allowable, and properly allocated;
- Be incorporated into official records;
- Reasonably reflect total activity for which the employee is compensated, not exceeding 100% of compensated activities;
- Encompass both federally assisted and all other activities compensated by the agency on an integrated basis;
- Comply with the established accounting policies and practices of the agency; and
- Support the distribution of the employee's salary or wages among specific activities or cost objectives.
- Budget estimates or other distribution percentages determined before the services are performed do not qualify as support for charges to federal awards but may be used for interim accounting purposes provided that the system for establishing the estimates produces reasonable approximations of the activity actually performed. (§200.430(i)(1)(viii))

Time and Effort Procedures

To meet the above requirements, all employees must complete time and effort forms as required below. Each form must list the cost objective for which work was performed. A cost objective is a program, function, activity, award, organizational subdivision, contract, or work unit for which cost data are desired and for which provision is made to accumulate and measure the cost of processes, products, jobs, capital projects, etc. (2 CFR § 200.28) Although the previous semi-annual certification and the personnel activity report (PAR) are no longer required forms of certification, LEAs may continue to use them as they see fit, but forms must be updated to include reference to the current guidance. Otherwise, LEAs may create their own time and effort certification forms, ensuring they meet all standards listed above.

Semi-Annual and Personal Activity Reports

Should an LEA choose to continue using the semi-annual certification or PAR, here are some suggested guidelines for those reports to be compliant with current guidance:

All employees whose work is funded fully (100%) by a single cost objective or grant award may complete a semi-annual certification. The semi-annual certification must be:

- Completed at least every six (6) months (twice per year);
- Be signed by the employee or the supervisor with direct knowledge of the work being performed;
- Reflect an after-the-fact distribution of the actual activity; and
- Account for the total activity for which each employee is compensated.

A personnel activity report (PAR) may be completed if an employee is funded partially on one (1) or more grant cost objective(s). It provides a written record of an employee's work activities used to document that employee's time charged to grants or projects. It must be completed monthly and supported by a daily calendar of activities. All employees who work on multiple cost objectives must complete PARs that support the distribution of their salaries/wages that meet the following standards:

- Reflect an after-the-fact distribution of the actual activity, not a budget estimate;
- Account for the total work activity for which each employee is compensated;
- Be prepared at least monthly (a separate PAR for each month) and coincide with one (1) or more pay periods; and
- Be signed by the employee.

All employees who are paid in full or in part with federal funds, or as required by state funds, must keep specific documents to support the amount of time they spent on grant activities as reflected on each time and effort certification form. This includes an employee whose salary is paid with state or local funds but is used to meet a required "match" for a federal program. These time and effort records should be maintained in order to charge the costs of personnel compensation to federal grants or applicable state grants.

See Appendix for Sample Time and Effort Certification forms.

Reconciliation Procedures

It is critical that payroll charges match the actual distribution of time recorded on the monthly certification documents. Budget estimates or other distribution percentages determined before the services are performed do not qualify as support for charges to federal awards but may be used for interim accounting purposes, provided that the system for establishing the estimates produces reasonable approximations of the activity actually performed.

When using budget estimates for interim accounting purposes, EDGAR (Education Department General Administrative Regulations) requires recipients to identify and enter into the records in a timely manner any significant changes in the corresponding work activity. Additionally, the federal program office must have a system of internal controls to review after-the-fact interim charges made to a federal award based on budget estimates. All necessary adjustments must be made such that the final amount charged to the federal award is accurate, allowable, and properly allocated.
