Attachment B: Scope of Work

Contractor: TBD

Background and Scope of Work:

The general purpose of this agreement is to establish a cooperative contract with the Contractor to provide approved instructional materials to Eligible Users. These Eligible Users include local education agencies (LEAs) which mean: (a) a school district; (b) a charter school; or (c) the Utah Schools for the Deaf and the Blind.

All instructional materials must include the following information: series name, title, author, publisher, edition, ISBN (if available), core (course) code, student edition/ancillary designation, copyright year, adoption year. The materials were reviewed by subject area advisory committees that assigned each series or title to a category. The reviews were then submitted to the Utah State Board of Education (USBE) for further consideration. Categories, per Administrative Rule R277-469, are as follows:

- **Recommended Primary:** Instructional materials are in alignment with content, philosophy, and instructional strategies of the Core; have been mapped and aligned to the Core, consistent with Section 53E-4-408; are appropriate for use by students as principal sources of study; and support Core requirements.
- **Recommended Limited:** Instructional materials that are in limited alignment with the Core or current assessment requirements or are narrow or restricted in their scope and sequence. If school districts or schools select and purchase materials designated under this category, it is recommended that they have a plan for using appropriate supplementary materials assuring coverage of Core requirements.
- **Recommended Teacher Resource:** Instructional materials that are appropriate as resource materials for use by teachers.
- **Recommended Student Resource:** Instructional materials that are aligned to the Core that are developmentally appropriate, but not intended to be the primary instructional resource, which may provide valuable content information for students.
- **Reviewed, But Not Recommended:** Instructional materials that may not be aligned with the Core, may be inaccurate in content, include misleading connotations, contain undesirable presentation, or conflict with existing laws and rules. School districts are strongly cautioned against using these materials.

In-State Distribution Point (Depository):

Pursuant to Administrative Rule R277-469, a Contractor seeking to sell recommended materials to Utah schools or school districts shall maintain on deposit the number of books necessary to meet the anticipated needs within the state at an instructional materials depository in the business of selling instructional materials to schools or school districts in Utah. Contractor must submit verification of compliance with this requirement to USBE through the Contractor's contracted depository before USBE posting a review of the materials

on RIMs. Contractor may make a depository agreement with one or more depository. Contractor may also sell instructional materials to schools or school districts in Utah directly or through means other than a designated depository. Contractor need not store digital and online resources within the state, but shall guarantee timely resource availability of a placed order and shall provide digital and online resource orders without shipping charges.

Request for Substitution:

Contractor may request a substitution for the edition currently recommended provided that:

- The original contract price and contract date do not change, and the original contract price applies for the substituted material.
- The revised edition is compatible with the earlier edition, permitting use of either or both in the same classroom.
- A sample copy of the contracted and revised edition is provided to the USBE program manager indicated below for examination purposes prior to the approval of the substitution.

USBE shall make the final determination about the substitution of a new edition for a previously recommended edition. If USBE approves the substitution, the Contractor agrees to submit an updated version of the program or textbook in NIMAS file format to NIMAC for use in the creation of Braille, large print, or other formats for students with print disabilities.

Request for Reconsideration:

Contractor may request reconsideration of instructional materials when the Contractor disagrees with the initial USBE recommendation.

- Contractor shall have 30 days to respond to the evaluation and request to have materials reviewed again during the next applicable review cycle.
- During the period of reconsideration request, materials shall be marked as tentative and shall not be given official status. These materials shall not be posted to the instructional materials website until recommended through the official instructional materials process.
- Contractor may be asked to send a second set of sample materials to USBE.
- Contractor will submit, in writing, their argument for reconsideration. This information will be provided to the second review committee and the subject area specialist, as well as USBE.
- If USBE votes to change the recommendation, USBE shall consider the revised recommendation at the next scheduled USBE Board meeting and make a final decision.
- Contractor will receive written notification that a recommendation is final and shall receive a copy of the new evaluation. Evaluations may now appear on the instructional materials website.

Free or Reduced Cost Material:

Contractor agrees that any free or reduced cost material and/or service listed on the Contractor's original bid document will be made available on an equitable basis to all Eligible Users within Utah.

Accessibility Agreement:

Contractor agrees to prepare and submit, on or before the instructional materials due date for that review cycle in question, a NIMAS file set to the NIMAC for every text that complies with the procedures set forth by the NIMAC. The files will be used to produce alternate formats as permitted under the law for students with disabilities. Should the Contractor be a distributor of the materials and not the publisher, the distributor agrees to immediately notify the publisher of its obligation to submit NIMAS file sets to the NIMAC. All materials that may be distributed to LEAs, schools, the public, or posted on the USBE website, must be compliant with Sections 504 and 508 of the Rehabilitation Act (codified in 29 U.S. Code § 794), as amended for the Workforce Investment Act of 1998 and Web Content Accessibility Guidelines (WCAG) 2.1 AA.

Data Privacy:

Contractor must guarantee the protection of student data that may be acquired through the use of their product, in that they agree that all student data is the property of the LEAs and may not be used in any form for any purpose by the Contractor, nor may it be shared or sold to any party outside of the LEA from which it was acquired. Please see Attachment A: Utah State Board of Education Standard Cooperative Terms and Conditions for Goods and Services for further data privacy considerations.

Contract Award and Budget Information:

The contract is for a term of five (5) years. However, USBE reserves the right to terminate the contract at any time in accordance with the provisions set forth in the USBE Standard Terms and Conditions.

The contract is based on requirements, and the Contractor will charge Eligible Users pricing in accordance with Attachment C – Price List. Costs shall be all-inclusive.

Pricing Guarantee:

The Contractor guarantees all pricing for a period of one (1) year. If the Contractor wishes to request a price adjustment, the request must be submitted in writing no less than thirty (30) calendar days prior to the proposed effective date. Each request must include adequate

supporting documentation, such as a market analysis, justifying the adjustment. No price adjustment will take effect without prior written approval from USBE. Any approved adjustment shall remain in effect for a period equal to the original price guarantee—one (1) year—unless otherwise agreed upon in writing.

USBE and all Eligible Users shall automatically receive the immediate benefit of any market price reductions or allowable discounts.

The Contractor warrants that the prices offered under this agreement are the lowest available to any similarly situated governmental entity, educational institution, or commercial customer under comparable terms and conditions.

Invoicing:

Contractor shall submit invoices electronically to the individual Eligible Users for all goods and/or services provided in accordance with the terms of the agreement. Invoices will not be considered for payment if submitted by another method.

Invoices shall include the following:

1. Contractor Name
2. Vendor Number (if known)
3. Uniquely identifiable invoice number
4. Invoice date
5. Contract or Purchase Order Number
6. Recipient Entity's contact information (phone number and email address)
7. Contractor's authorized signature
8. Date(s) goods/services were provided
9. Description of goods and/or services for which payment is requested
10. Dollar amount requested

Contractor will submit invoices within 30 days after the delivery date of the goods/services to the Eligible User. The contract number shall be listed on any invoices, freight tickets, and correspondence relating to the agreement. The prices paid by the Eligible User will be those prices listed in this agreement unless Contractor offers a discount at the time of the invoice. It is Contractor's obligation to provide correct and accurate invoicing. The Eligible User has the right to adjust or return any invoice reflecting incorrect pricing.

Invoices submitted by Contractor without the required information will not be paid and shall be returned to the Contractor for completion.

All payments made to the Contractor under this agreement shall be made in the name of the Contractor, as it appears in this agreement. All payments will be sent to the address for the Contractor as it appears in the agreement. Changes to the information identified in this section must be requested in writing.

USBE and Eligible Users reserve the right to question or seek clarification for any cost invoiced if the invoice is not supported by proper documentation.

Contractor may be required to repay the Eligible User if, during or after the contract period, an audit or other review determines that payments made by the Eligible User to Contractor were incorrectly paid or were based on incorrect information received from the Contractor. USBE and Eligible Users reserve the right to withhold any or all subsequent payments to the Contractor until the incorrect amounts paid have been fully recovered.
