

Kindergarten, here we come!

Helping your child transition to kindergarten by providing plenty of chances to practice these skills is essential.

Lifelong Learning Practices

Builds social skills through curiosity, independence, and problem-solving.

Health Education

Teaches healthy habits that help children feel good and focus.

Physical Education

Promotes fitness, teamwork, and confidence for a healthy lifestyle.

English Language Arts

Develops reading, writing, speaking, and listening skills to share ideas and solve problems.

Mathematics

Encourages problem-solving and discovering patterns through fun and curiosity.

Public Kindergarten Entrance Requirements

- Must be five years old BEFORE September 2 of the enrolling year.
- Utah Code 53G-7-203 and Board Rule R277-631 require children to be toilet-trained before enrolling in kindergarten.

Check with your local school district or charter for additional requirements. For more information visit:
