

SOEP Course Guidance for Middle School Students

Purpose of the SOEP: The Statewide Online Education Program (SOEP) expands access to courses, supports flexibility, and promotes college and career readiness for Utah students

1

Middle school students may take middle or high school courses through the SOEP

2

Students must demonstrate competency in middle school standards before taking high school courses

3

Middle school students cannot use high school courses to replace middle school requirements

Example: If the student has not taken middle school PE, the student should not be allowed to take an SOEP high school PE to fulfill the middle school PE requirement

4

High school level courses must be reflected on the student's high school transcript

Please reach out to the SOEP team for further questions or clarification.
