Graduation Rate Highlights

- Utah’s state graduation rate for the 2024 cohort is 88.8%.
- Seven of the nine reported student groups increased their graduation rate from 2023.
- A total of 47,477 students graduated from Utah’s high schools.
- Utah’s graduation rate has increased from 88.3% in 2023 to 88.8% in 2024.

Methods

The Every Student Succeeds Act (ESSA) requires the state to calculate a four-year cohort rate. Utah implemented a federally defined cohort graduation rate in 2008. The graduation rate for the 2024 cohort includes all students who started ninth grade in the 2020-21 school year, students who transferred into the Utah public education system after ninth grade, and students with a significant cognitive disability who met eligibility requirements to have their cohort reassigned from a previous year to 2024. Students in the cohort have four possible final outcomes:

- Graduate
- Continuing Student
- Other Completer

- Dropout

The “graduate” category includes students who have earned a basic high school diploma, Alternate Diploma (for students with a significant cognitive disability as defined in Board Rule R277-705-2), or an adult education high school diploma by September 30 following the end of their cohort school year. “Continuing students” are students who have been allowed to continue attending school beyond their senior year, or those who transferred to higher education or the Utah System of Technological Colleges (formerly UCAT) without first receiving a high school diploma. Students considered “other completers” include those who passed the General Education Development test (GED) received a certificate of completion; or are a student with a disability who aged out of school. The “dropout” category includes students who have not completed graduation requirements, such as those who have withdrawn, dropped out, or have been expelled.

2024 Graduation Rates

The graduation rate for the 2024 cohort is 88.8%. This is a 0.52% increase from the 2023 cohort’s graduation rate of 88.3%. The Asian student group had the highest rate for 2024 with 91.54% meeting graduation requirements. The Students with Disabilities student group had the largest gain in graduation rate from 2023 to 2024 by going from 73.85% of students graduating to 76.58%. Year-to-year changes for all reported student groups can be seen in Table 1. For an overview on how graduation rates are calculated, refer to Appendix A.

Historical Graduation and Dropout Rates

At the state level, graduation and dropout rates have improved over the last five years. Graduation rates have remained stable over the past 5 years, from 88.2% in 2020 to 88.8% in 2024. Over the same time, dropout rates have decreased from 16.25% to 9.38%.

Figure 1. Historical Graduation and Dropout Rates

Similarly, graduation rates have increased overall for most student groups over the past five years. Graduation rates for the Race/Ethnicity student groups have remained relatively consistent or increased over the years, with decreases typically being small. The American Indian student group has seen the greatest increase from 2020 to 2024; improving by over 4 percentage points. The Pacific Islander and African American student groups were the only Race/Ethnicity groups that saw a decrease in their graduation rate from 2023.

Graduation Outcomes

Tables 5 and 6 show the graduation rates for cohort years 2022, 2023, and 2024, as well as the dropout rate for 2024. The rates are reported for each Local Education Agency (LEA) and school. Table 5 shows districts and district schools, and Table 6 shows charter agencies and charter schools.

In compliance with FERPA regulations and student data privacy best practices, data for groups with fewer than eleven students are masked with “N<=10”.
