

Innovation Proposal: History Explorers – All Around the World

Elevated Charter School
Saratoga Springs, Utah
Contact: Elaina Westegaard
Email: ecsdirector@elevatedcharterschool.org

Proposed Innovation

Students will learn about significant people, places, and celebrations all around the world. Each module focuses on 1-2 continents, including geography, interesting historical events, and cultural practices. Live classes include collaborative activities in which students discuss and share ideas with peers, participate in short simulations, complete guided notes, and play games.

Purpose and Potential

Through primary and secondary sources, students learn about geography and cultures around the world in mixed-age class, using living books, stories from each culture, collaboration, visuals, and projects. Students continue learning outside of class with hands-on projects that include choices to connect to individual interests and learning styles that engage them.

Courses Include

A live online class that meets on Tuesdays on one of two time slots.

Student Outcomes

will be measured through formative and summative assessments to track growth measurements and student progress.

Funding

Grant funding will be used for the purchase of books for students.

Under House Bill 386, Local Education Agencies can approve up to \$5,000 in grant funding for innovation programs. The innovation outlined here is one example that has been approved for implementation. Learn more at schools.utah.gov/ulead
